

ESSE  
CAFFÈ

ESPRESSO IN ITALY

*Express*

The perfect solution for  
Food service & Hospitality business

ESSE  
CAFFÈ

ESPRESSO IN ITALY

A convenient and easy system to deliver  
a perfect cup of coffee at any time.

The new Expresss line by Esse Caffè guarantees consistently high quality  
coffee for food service and hospitality professionals.

The system is intuitive, user-friendly, and functional for your business:  
Compared to traditional espresso coffee machines, the Expresss capsule  
machine reduces maintenance cost, doesn't require  
any extensive staff training and permits a considerable energy savings.

# THE SELECTION OF COFFEE

The Expresss capsule is self-protected to preserve the quality of the blend.

## The selection of Coffee

The blends developed for the Esse Caffè Expresss System are elegant and refined, just like the finest Esse Caffè traditional blends. A wide range of organoleptic nuances to please even the most demanding palates.

### Classico

A blend of fine Arabica and Robusta coffees. A rich and full-bodied flavour with a persistent after taste, enriched with hints of chocolate, spice and nut notes.

### Intenso

A premium blend of Arabica and Robusta, a triumph of pleasure, with chocolate, spice and vanilla hints.

### 100%Arabica

A medium roast blend of fine and exclusive Arabica beans spreads fruity and almond notes. A cup of coffee with excellent body.

### Decaffeinato

A blend of Arabica and Robusta coffees that are decaffeinated and dewaxed. A coffee characterised by a dense and regular structure, with outstanding notes of nut and cocoa.

Classico, Intenso  
(single dose / double dose),  
Arabica, Decaffeinato:

**Box** 100 capsules  
**Box dimensions** 26,5 x 20 x 14 cm

Ginseng e Orzo

**Box** 60 capsules  
**Box dimensions** 25,5 x 19,5 x 12 cm

## Soluble beverages

A selection of pleasant flavours to choose from at any time of day.

### Ginseng

Vibrant and soft, it is ideal for recharging your batteries as part of a delicious and energy-packed break. Caramel and vanilla notes. Gluten-free

### Orzo

Esse Caffè Barley Coffee has an intense flavour paired with a creamy and delicate consistency. Ideal served as the relaxing end to any day, its velvety taste is also perfect for enjoying during your break.

DOUBLE DOSE CAPSULE  
(only for MAYA)

 Classico
  Intenso

Classico and Intenso are also available in double dose capsule to maximize your service.

Up to three coffees can be prepared at the same time to ensure flexible service, in order to meet every customer's needs.

The perfect dosing for the single and double capsule ensures an excellent and consistent extraction.

## THE PERFECT SYSTEM FOR YOUR PLACE

A professional coffee machine with **Elegant design** that's **extremely reliable** and practical thanks to its **compact size**.

**Quick to start**, The machine is ready to brew a perfect Espresso within 2 minutes from the switch-on.

Thanks to the specially **designed system**, the machine is ready to brew a perfect espresso since the first cup with no waste of coffee.

A dedicated software ensures a perfect espresso right from the **very first cup**.

Choice of **different coffee blends** and soluble beverages.

**Barley and ginseng** are also available in capsules, with no need for a dedicated machine.

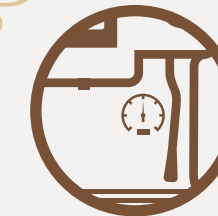

Perfect extraction every time, in just a **few simple steps**. There's no need for any long hours of training.

**Considerable energy savings** compared to professional espresso machines. An auto switch-off function is available.

**It doesn't require constant maintenance** like professional espresso machines. A highly engineered design reduces intervention time in the event of technical problems.

Excellent **cappuccino** can be prepared thanks to the steam jet from the wand.

Each coffee brewing button can be **customised** in terms of **volume** in order to serve the ideal cup of espresso for each customer.

Accurate pressure and infusion controls guarantee excellent extraction and a **perfectly creamy** cup of coffee.

# MAYA

A professional machine perfect for your business.

Professional coffee machine with large cup warmer.  
Possibility of using the double dose capsule for an optimized service.  
Settings to customise volume and water temperature.  
No waste of coffee – the perfect espresso from the first cup, thanks to the preheating system.

## TECHNICAL FEATURES OF THE MACHINE

Two brewing groups (one double and one single), one to three extractions carried out at the same time, in order to meet the service requirements.

The hot water and steam wand system allows the operator to prepare excellent cappuccino and latte macchiato. The quality of the materials used, the LCD display, and the possibility of connecting the machine directly to the water supply make it a reliable, practical and convenient tool to meet every customer need.

Esse Caffè has developed **ESSE.iD** an electronic system to guarantee the best quality beverage preventing the use of not original Esse Caffè Expresss capsules.

- Dual intelligent operating systems controlled by an LCD display;
- 2 independent units ensuring thermal stability, individual unit management and a dedicated pump for greater brewing consistency;
- 2 coffee boilers, 1 steam boiler;
- 304 stainless steel;
- 2 high-efficiency pumps for coffee, 1 for pumping water;
- Removable water tank with possibility of direct mains connection;
- Independent, removable used capsule containers for each unit, with a total capacity of over 40 capsules;
- Alert for full drawer and drawer presence;
- Programmed cleaning setting with descaling;
- Energy-savings settings with automatic shut-off function.

<b>Dimensions</b>	540x480x430 mm
<b>Weight</b>	24.0 Kg
<b>Power</b>	2600-3000W
<b>Pump</b>	20 Bar
<b>Water tank</b>	3200 ml

# ARYA

A compact machine for an extremely versatile service.

A machine with an elegant design and compact size, perfect for small spaces.

Two independent single groups with two different preset extraction types - regular and long espresso.

Greater energy savings thanks to the machine specially designed settings.

## TECHNICAL FEATURES OF THE MACHINE

The Arya machine has two single brewing groups, up to two extractions can be carried out at the same time in order to meet service requirements.

The full touch panel allows to activate the hot water and steam wand functions to prepare tea and infusions, as well as a perfect cappuccino and latte macchiato.

Esse Caffè has developed **ESSE.ID** an electronic system to guarantee the best quality beverage preventing the use of not original Esse Caffè Expresss capsules.

The quality of the Expresss system applied to Arya, make it a versatile and functional solution that does not need a direct connection to the water supply.

- Dual intelligent operating systems controlled by LED display;
- 2 independent groups ensuring thermal stability, individual group management, and dedicated pump for greater brewing consistency;
- 2 coffee boilers, 1 instant steam boiler;
- 2 high-efficiency pumps for coffee, 1 pump for hot water and steamer;
- Removable water tank with possibility of direct main connection;
- Independent and removable used capsule containers for each unit, with total capacity of over 25 capsules
- Programmed cleaning setting with descaling;
- Energy-saving settings with automatic shut-off function.

<b>Dimensions</b>	320x325x320 mm
<b>Weight</b>	8.5 Kg
<b>Power</b>	1050-2300W
<b>Pump</b>	19 Bar
<b>Water tank</b>	2800 ml
